VOLUME XLIV · UKIAH CITY, MENDOCINO COUNTY CAL., FRIDAY MORNING, SEPT. 6, 1912 · NUMBER 47

Primary Election Passes off Quietly

Ford Wius Over Miller in Second, Harris Over Clow in First, Ross from Stoddard in Fourth, While Ray Downs Treacherous Press Gang By Narrow Margin.

Zumwalt and Hart Win for Congress

The primary election in Mendocino county passed off quietly. There were contests in both parties. The congressional fight was watched with much interest . The fight in the republican ranks was between Hart and Connick and belated returns indicate that Hart has carried the county and the district.

Zumwalt carried the county over Juilliard by a two to one vote and has secured the nomination.

For the Assembly, Milliken, the republican, and Weldon, the democrat, had no opposition for the nomination in the respective parties and will contest honors in November.

SUPERVISORIAL FIGHTS.

Great interest was manifested in the supervisorial fights in the First, Second and Fourth districts. In the First district, D. H. Lawson, the democratic aspirant, had no oppiostion and secured the nomination. W. H. Dixon the hustling democrat of Fort

Bragg, has secured the democratic nomination in the Fourth district. The election of Lawson and Dixon seems to be generally conceded.

In the Second district there was a friendly contest between W. H. Miller and E. M. Ford on the democratic ticket. Both were excellent gentlemen, but Ford got the lead and maintained it, winning the nomination by about 200 majority.

E. M. FORD
Democratic Nominee for Supervisor of the Second District

On the republican side of the house there were also contests in each district. In the First district the fight was between J. W. Harris, a Taftite and J. C. Clow, a Bull Moose. Harris won the nomination. In the Fourth

district there were several republican aspirants.

The fight however was between Ross and Stoddard, the former securing the nomination.

In the Second district J. V. Ray was the only announced candidate and seemed to have everything his own way. At the eleventh hour the old "Press gang" started a trick to write in the name of L. P. Anker and thus defeat Ray by skull-drggery polites. The scheme almost succeeded, despite the fact that Anker had annonced that he did not want the nomination and would not run against Ford. Ray won the nomination by 4 votes.

SIDE LIGHTS ON THE PRIMARY

The hystreical antics of Jabber Jabber White, the double crossing spittoon cleaner for the "Press gang," added greaty to the gayety of things. He was materially assisted in his dirty work by a shyster lawyer who is supposed to be one of the "owners" of the discredited sheet.

Jabber Jabber White, the shyster lawyer and a few of the old time Press gangsters, who are now sitting in the amen corner of the Bull Moose Sanctuary with a "holier than thou" sanctimonious look, just could'nt help it—they had to do something dirty. At the eleventh hour they (The Press gang of Bull Moosers) started out to defeat J. V. Ray for the republican nomination for supervisor in the second district by writing in the name of L. P. Anker, a Taftite, despite the fact that Anker had refused to make the race.

In spite of their treachery and political trickery, Ray secured the nomination. Not satisfied with the odoriferous work within the republican party, which they had deserted for the Bull Moose, this gang of political hacks tried to put their slimy fingers into the democratic primaries, and urged the democrats to vote for W. H. Miller for supervisor. Mr. Miller is a most excellent gentleman and was making great headway but the withering blight of Jabber Jabber and the discredited gang was too much for him to bear and he was defeated by a bunch whose support he didn't want.

To still further show their double dealing, the Press gang, through Jabber Jabber, the dirty man, got into the fight in the First district. Claiming to be Bull Moosers, they induced J. C. Clow, a Bull Moose to contest the nomination with J. W. Harris, a Taftite, and Harris won the fight on account of the treachery of the Press gang.

Being incapable of making an honorable fight, they caused the report to be circulated that Clow had withdrawn, consequenty Clow was defeated when victory was just in sight..

The real progressives are so incensed at the double crossing of White that it is rumored that a move is on foot to read him out of the Bull Moose party.

The Taftites won't have him so he is between the devil and the deep sea—a man without a party, and a man whom no party wants.

And to add to the discomfiture of the peewee politicans, Anker announced before and after that had he been nominated he would have resigned. This leaves the Press gang the laughing stock of creation.

PRESIDENT OF CONCERN HELD TO ANSWER

E. A. Salsbury, president of the defunct California Mail Order House in the failure of which a big bunch of Ukiah and Lake county farmers lost considerable hard cash, had his preliminary examination in Judge Crockett's court last Saturday Judge Whitney, of Willits presiding. The charge on which he was tried was that of obtaining money fraudulently.

The prosecuting witness was Warren Brown. The case had been well worked up by Attorney T. P. Hale Brown's attorney, and by District Attorney Robert Duncan, and although Mr. Miller, Salsbury's attorney, put up a hard fight to clear his client, Salsbury was held to answer before the Superior court under $1500 bail, which he furnished.

The date for the trial has not yet been set.

Elmer Robinson and mother, of Fort Bragg, arrived in Ukiah last week and have taken a cottage for several months. The lad has been troubled with a throat affection and had to leave the coast for a time. He has accepted a position as reporter on the Dispatch. He is a live wire and we recommend him to our friends.

WILLITS WATER COMPANY IN FIGHT FOR WATER

Joe Landrum, who owns a place about four miles this side of Willits, was in Ukiah this week to engage legal talent to defend himself against the alleged encroachments of the Willits water company.

The row between Landrum and the company has been smouldering for some time and broke into open warfare the first of the week. It seems that with Landrum's place goes a right for 16 miners inches of water which has been deeded to successive owners of the property, whenever the place changed hands, for over 50 years, and which Landrum holds by such deed. When the Willits Water company established its plant it went above Landrum's place and built a dam. The overflow from this dam has been sufficient to satisfy Landrum's needs until within a month, when it is alleged the company took all the water, leaving him dry. He thereupon went up to the company's dam and tore it out, standing guard with a shotgun. The company asked permission to use the water for a few days, whereupon Landrum relinquished his advantage, giving them until the following evening to adjust the thing satisfactorily so that he might get his water. When he returned the following evening he found four men standing guard with guns and he was arrested for trespass.

He has engaged Preston and Preston and the complaint to obtain what he alleges to be his rights will be filed in a few days.

LAKE CANNING COMPANY IMPROVING ITS PLANT

Wm. A. Hoefgen, superintendant of the ranch of the Lake County Canning Company, reports that everything is running along nicely at the cannery at Upper Lake. Just lately the company purchased, and installed a new sanitary capp and seaming machine, which eliminates a great deal of work, and which enables them to pack a great many more cases a day. The same turns out about twenty five cans per minute at the average run, but is capable of obtaining a much greater speed.

Those who have visited the ranch report that the beans this year are the finest they have ever seen them and that they even surpass those grown at Upper Lake heretofore.

This company is making rapid strides toward the advancement of the bean industry, and are doing all in their ower to promote the same. At present they have about fifty or sixty acres planted to beans, but the coming year they expect to have from one hundred to one hundred and fifty acres in beans, and they will also replace the old machinery with new modern canning equipment, thus making the cannery a very up-to-date establishment. Beans are being hauled to Ukiah from Upper Lake daily, and actual shipping has already commenced.

The land owned by the Lake County Canning Company is the finest land in Lake county, and the money invested in that company is wisely invested.

FINAL FIGURES FOR SHIPMENTS OF PEARS

The final figures for the pear shipments from Ukiah this season have been obtained and show a total of 745 tons. The prices varied but averaged about $20 a ton netting the growers about $15,000.

The tonnage was divided as follows:

Banks and Polland 320 tons.

California Fruit Canners Association, 173 tons.

Central Calfornia Canneries 100 tons.

J. A. Morrill, 100 tons.

To Los Angeles, 40 tons.

To San Francisco 12 tons.

O. F. Nutter, foreman of the Dispatch for several years, has resigned his position and is contemplating leaving this section soon. Bernard Moore, son of Rev. and Mrs. J. E. Moore, has been promoted to the foremanship and is making good.

Preparations Are Completed for First Annual Hop Festival

Big Agricultural and Stock Exhibit

Aeroplane Flight, Auto and Motorcycle Races, Big Parade, Grand Illumination and Open Air Street Dance Will Be Features

Preparations for Ukiah's hop festival are now completed and every prospect points to a big send-off for this, the first annual event of this character. The publicity committee has been very active and has spread the news of the festival to every corner of the county. This week and next the four coast papers and the Willits News, the Lakeport Bee and Press and the Cloverdale Reveille will come out with ads and writeups and in addition posters have been placed in every town and hamlet in the county.

The entertainment committee has arranged for a day replete with features. There will be auto and motor cycle races and a big automobile parade. Demonstrators will be here from San Francisco with their cars and it is intended to have a representative of every standard make of car present.

These autos will be parked on Standley, School and Perkins streets around the courthouse square and will also participate in the parade in the morning.

R. L. Hutchison has been appointed committee of one to obtain an aviation exhibition and reports that he is in touch with several aviators, one of whom will be selected to make a flight here. The intention is to hold the flight at the racetrack. This will be the first opportnuity for many of our people to see a flying machine in the air and it is safe to say it will be a big drawing card.

The day's festivities will conclude with a big open air street dance in front of the courthouse. The streets will be prepared with soapstone and music will be rendered by Keller's band, which will also play for the parade and render a concert in the afternoon. The central part of town will be illuminated and King Carnival will hold full sway.

A big feature of the festival will be the agricultural and stock exhibit by the farmers of the valley. The exhibit will be placed in the Redemeyer building and the stock show will be held in the lot to the rear.

The Exhibit Committee met last Wednesday night and made out the list of prizes to be offered to the exhibitors.

Liberal prizes are offered and the list of exhibits covers all the most profitable, important and interesting lines of produce.

The Blue Ribbon goes with each first, and the Red Ribbon with each second prize offered. Exhibits are solicited for all of the prizes offered and the opportunity is open for any resident of Mendocino county to show his neighbor and the rest of us just what he has in certain lines. Exhibits must be entered with the chairman of the Exhibit committee, O. A. Bernhard, by noon of Friday, September 13th, and must be in place by six o'clock p. m. of that day; excepting stock exhibit which must be entered by Friday and in place by eight o'clock of Saturday, September 14th. It is urged, however, that entry be made at the earliest possible date, and actual placing in the exhibit can be made later.

For further and full information regarding exhibits, and prizes, phone, write, or see C. A. Bernhard, Ukiah Cal., who will gladly help you in any possible way.

Following is the list of prizes which will be offered as announced by Chairman C. A. Bernhard of the exhibit and prize committee.

BUYS BLORE RANCH IN COYOTE VALLEY

J. A. Waltdteufel reports the sale of the old Blore ranch in Coyote Valley the past week, the buyer being P. J. Spenser, of Oakland. The previous owner was H. H. White. The price was $8500.

The Blore place consists of 120 acres, on Russian river, 70 acres lying in the valley proper. It is considered to be one of the best places in that section, which means one of tha the best in the county. It is Mr. Spenser's first venture in Mendocino realty and he expressed himself as well pleased with his investment.

BIG RANCH SOLD AGAIN

Knipp and Stingle Ranch Sold as Whole to Russian Colony

The 3000 acres ranch, known as the Knipp-Stingle place, which was sold recently to a syndicate of San Francisco capitalists, and subdivided into small farm units has again been sold, this time to a colony of Russian-Baptists from Siberia, who are leaving their native country to escape religious persecution. This land, sold to the colony is considered one of the best tracts of land on the coast, and lies between Gualala and Black Point.

The colony composed of 200 families near 800 people, will add much to the population of our down coast settlement and put new life into that section.

Yesterday, there arrived in the steamer Sea Foam the first contingent of the new colony, some thirty families—fifty seven people, men, women and children. They were under the leadership of John Frombergers of San Francisco, and were a representative looking lot of settlers which would give much promise as a valuable acquisition to any man's country. The men, rugged and strong looking, the women motherly and pleasant faced, and the children, bright-eyed, good mannered and happy looking youngsters spoke volumes in itself for the newcomers to observant citizens. The children could all speak English, and one or two of the other were graduates of grammar schools in this State. Some of the new arrivals were just from Russia, while a few of them had lived for a few years in this and Eastern States. The next steamer will bring another lot of the colonists and the remainder will come within the next two months. They left for their new homes on the beautiful Gualala river about noon, and it was a pleasing sight to all (well except knockers) to see that auto, with six horse and four seated wagons loaded with newcomers, singing as they went, while leaving for their future homes.

The colony will be run on the co-operative plan, having their own stores, blacksmith shops, sawmill, schools etc. The minister and a fair school teacher were among the members of the colony arriving and the rest of freight in the shape of irrigation pumps, engines, farming machinery and supplies of all kinds shows that they have the means to go a general farming and fruit and vegetable business with the possibilities of making it a success.—Record.

Farmer's Institute at Arena

A Farmer's Institute will be held in Point Arena Monday and Tuesday October 28th and 29th. The Institute will be addressed by able speakers from the State Agricultural College who have both a practial and theoretical knowledge of farming and farmer's possibilities. The only expense incurred by our local people will be the rent of the Opera house and the advertising of the Institute. Our farmers, Board of trade, business men and citizens generally should get down to work and make that institute a success. A good display of our fruits, grains, grasses, and vegetables would be the proper thing in connection with it. The date has been set for Oct. 28th and 29th, now get busy preparing a suitable programme which will insure its success.—Record.

School Bonds Carry

Ninety-three for, and three against was the status of the final count on the bond election, Saturday. The result is a credit to the people of this enterprising community. That but three opposition votes were present tells eloquently of a gratifying growth of the boost spirit.

The election provides for the issuance of five one thousand dollar bonds maturing at successive annual dates. This amount of capital placed into the hands of Fort Bragg's capable and trustworthy school trustees will mean an investment that will return benefit worth a hundred times the money—Fort Bragg Chronicle.

Smith Locates Runaway

Harold Weeks the seventeen year old lad who disappeared some time ago from the home of his sister, Mrs. E. D. McKerricher, was located in Reno last week by F. J. Smith and induced to return. Week's would not state why he ran away, or his reasons for not communicatng with his anxious parents. He told Smith that he was bound for New York.—Fort Bragg Chronicle.

"Were all medicines as meritorious as Chamberlain's Colic, Cholera and Diarrhoea Remedy the world would be much better off and the percentage of suffering greatly decreased," writes Lindsay Scott of Temple, Ind. For sale by all dealers.

NEW APPLE DRYER OPEN

Plant at Point Arena Odens up New Market for Apple Growers

On last Thursday the Point Arena new fruit dryer started up for the season run, and on Saturday we visited the institution and was courteously show through the works by the proprietor, L. A. Caselli. While the building is small, its interior is so arranged as to give a good working space without over crowding.

The dryer has a capacity of three tons of apples per day and since it opened has been handling a ton and a half of apples a day, aside from prunes and other fruit.

At the time we called, two apple paring machines, which pared, cored and sliced the apples were in full operation. The sliced pieces of apples are laid on trays and then placed in a sulphuring room and sulphured and from there transferred to the drying room. The drying or evaporating room has six compartments with a capacity of over one hundred large trays of apples. Underneath the drying room and running its full length and width is a large furnace. The heat from the firebox of which, passing through five different sets of pipe coils before reaching the drying room with a steady even temperature. Mr. Caselli is to be commended for the enterprise displayed in giving Point Arena and vicinity a fruit dryer, which will handle all kinds of fruit with the exception of berries and is also a good innovation to our orchardists, who can now dispose of their second grade apples to an advantage and at a remunerative price. The price being paid by Mr. Caselli at present time, is $10 a ton for a fair quality of apples.

Mr. Caselli's venture is one which merits success and we hope to see in the near future that fruit drying establishment expand and take on a fruit canning and fruit and vegetable canning outfit in connection with it.—Record.

FORT BRAGG REALTY HAS BIG BOOM

Johnson & Berryhill report the sale to Jas. Edwards of Weed, Siskiyou Co., of the Bert Deems place just east of town. The property consists of one acre, well improved, with house, barn, and windmill.

Through the same agency, R. M. Brown has purchased the house and lot of the east side of McPherson street near the corner of Fir, from Chas. Burbeck.

J. C. Stanley, formerly a teacher in the local high school and now principal of the Yreka High School purchased the fifteen lots belonging to Mr. H. A. Weller and lying between Redwood Ave. and Laurel St., immediately East of Harold Street.

Mr. Stanley has just completed a neat bungalow of modern design on one of his lots in the Sherwood Villa tract, which, with this extensive purchase is indeed ample proof of his faith in the future of this city.

The sale was made through the agency of Johnson & Berryhill, the local real estate firm.—Fort Bragg Chronicle.

MANY REPAIRS ON ROAD

Cal. Western R. R. and N. Co. Overhauling Their New Line

The Fort Bragg railroad is now undergoing a general overhauling and when completed will rank with the best in the state.

Tunnel number one, connecting the Pudding Creek and Noyo river bottoms, is being re-timbered and enlarged so that any railroad car that is built will pass through with a safe clearance.

The road from the depot to tunnel number one, a distance of three miles, has been partially re-built. Large rails have been laid and many of the unnecessary turns taken out.

It is now well ballasted and much straighter, which enables the locomotives to run more safely at a faster speed.

Repair work is under way all along the road to Alpine. Many parts of the road are being ballasted for the first time. Instead of repairing the small bridges as many as possible are being filled in and thus permanently repaired.

A few changes are also being made on the new line. Special precautions are being taken to prevent slides that might come down this winter. At the horse-shoe cut a special track is being laid above the regular rails which will give the steam shovel a clearance of thirty feet to work in during the winter months in case of a slide. Similar tracks will be laid at all of the other bad cuts.—Advocate.

Van Nader's New Auto

Bert Van Nader has been working on an auto patterned after his own ideas during his spare time and now has the machine about as he wants it. His machine differs from those commonly seen mostly in the shape and arrangement of the body. His model is founded on the torpedo body and he calls it the "submarine" model.

It gives the machine a rakish appearance and in addition utilizes space that has hitherto been wasted. It will be introduced to the trade when ready for the market as the "Van Nader-Ukiah" type.

Visiting in Ukiah

Mr. and Mrs. J. A. Sinclair of Glen Blair paid Ukiah a visit Monday coming this far with S. Connick a prominent Humboldt lumberman and cousin of Clifton H. Connick aspirant for congress. Mr. Connick was in Mendocino to make a brief inspection of the mill in which he is a stockholder.

Mr. Connick made the trip in a big $6000 Pierce-Arrow Car. From here Mr. Connick will go to San Francisco and the Sinclairs will return to Glen Blair.

Fifty-Seven Deer Shipped

Express Agent Custer reports that 57 deer were shipped through the Ukiah express office for the two months of July and August, which comprised the season. In addition to this there were numerous small parcels of venison sent.

It would be interesting to know the total number of which went from this county during the season and the total amount of money spent in the county by hunters. It is safe to say the bucks would be found a remunerative source of revenue.

PRESENT TARIFF FOSTERS FRAUDS

Domestic Cotton Fabrics Sold Americans as "Imported."

CHEATING THE CONSUMER

Less Than 2 Per Cent Comes From Abroad, but Americans Pay Exorbitant Price For Home Goods Because of Deception and Prohibitive Tariff.

By ROBERT KENNETH MACLEA,
[Formerly consulting expert of the tariff board.]

New York, Aug. .—The prohibitive tariff, revised upward by the Payne-Aldrich law, permits and fosters wholesale frauds upon the American consumer of cotton goods.

Less than 2 per cent of the cotton fabrics consumed in the United States comes from abroad, because the protective duties have been made so high that importation is unprofitable.

Yet fully one-third of the cotton piece goods going over retail counters is sold as "IMPORTED" or under names implying a foreign origin.

This deception is generally perpetrated upon the consumer for the purpose of obtaining exorbitant prices for domestic goods.

The consumer, believing the goods are imported and knowing that the tariff adds excessively to their cost, pays 50 to 100 per cent more than a fair price and does not suspect that he is being cheated.

Drains the Pocketbook.

Let us go straight to a specific example of the operation of this fraud. Take the tariff board's cloth sample No. 56, described as a "printed dimity." This is a medium priced cotton fabric known to almost every American housewife. What woman or girl hasn't possessed a dimity dress within the last few years? And if she went to the cotton goods counter and bought the material by the yard she no doubt saw such signs as:

IRISH DIMITY.
8c.

The World's tariff editor visited with me a department store in a New England city of 100,000 inhabitants and found recently a counter piled with these goods, placarded:

REAL IRISH DIMITY.
19 cts.

We procured samples of all of them. There was not one piece of imported goods in the lot. Investigation proved that the store buyer had purchased these "Irish" dimities from a Boston jobber at 10 cents a yard and that they were made in a New England mill. Here was a supposed "bargain" in a supposedly "imported" fabric, on which the retailer was taking a profit of 90 per cent!

This happens to be a fabric representing the highest efficiency in American manufacturing. It is a class of goods in which we can compete advantageously with any country in the world. The tariff board's investigations discovered on sample No. 56 an American cost of production of 7 1-3 cents a yard. In all the mills investigated the board's representatives found that the low and high costs of manufacture of this fabric did not vary half a cent a yard.

Who Gets the Profit?

The manufacturer of this American dimity, that is sold as "imported" and "Irish," does not get the excessive profit. In some instances the manufacturer does, but here he sells to the jobber at 8 cents, taking only a nominal manufacturing profit of two-thirds cent a yard. The jobber sells to the retailer at 10 cents, a 25 per cent margin for the jobber.

In Canada, with 25 per cent tariff, a cotton fabric costing 10 cents a yard would be sold to the consumer at 12½ or sometimes at 15 cents if the pattern happened to be in special demand. In the United States, with its prohibitive tariff, the retail price is always much higher. The standard price retail is 15 cents for the fabric wholesaled at 10. But when the tariff is excessive—it is 54 per cent on this printed dimity—the dishonest retailer can "get away with" his deception and double or more than double his normal profit by selling the domestic article as "imported." The retailer knows that he could not buy a genuine imported dimity of this quality from a foreign manufacturer's agent in New York for less than 15½ or 16½ cents, and the trade would retail this at 25. He compares the domestic and foreign fabrics and finds the American made is equal in every respect to the fabric from abroad. So he says to himself, "Why not sell it as foreign goods at a price that will make it attractive?"

Mill Man Pockets It.

In some cases the manufacturer takes the tariff favor for his own pocket. Tariff board sample No. 34 illustrates this. No. 34 is a fancy white goods used for dress wear. Its manufacturer encountered a fair demand for this material during the past season. Table No. 169 of the tariff board's report shows a manufacturing profit of 90 per cent. It costs to manufacture this cloth 12.16 cents a yard. The mill refuses to sell to any one excepting the jobber, and through this channel the cloth reaches the retailer at 22½ to 25 cents a yard. The retailer charges the consumer 35 to 39 cents, according to location and local competition.

For comparison take the value of the fabric on weight. At the manufacturing cost of 12.16 cents a yard one pound of this goods is worth $1.23 as it leaves the mill. When it reaches the consumer (at 39 cents a yard) the price has been boosted to $4.20 a pound.

The manufacturing cost of this cloth in England is practically the same as here, yet the English manufacturer sells it for 15.44 cents a yard, the jobber at 17.26 cents and the retailer at 22 cents.

Bear in mind that the "difference in cost of production at home and abroad" in this class of fabric represented by sample No. 34 amounts to nothing, but the Payne-Aldrich tariff on it equals 55.89 per cent, or 8½ cents per running yard.

Fancy goods of the type of sample No. 34 are products of the Lippitt-McColl class of mills. The Payne-Aldrich bill raised the duty on this cloth from 35 to 55.89 per cent. Is it any wonder that Senator Lippitt and Mr. McColl were interested in amending the Payne bill.—New York World.

STORY OF COTTON IS A THRILLER

A Narrative That Concerns the Welfare of Millions.

SHOWS EVILS OF PROTECTION.

Whole People Robbed by a Tariff That Rich Manufacturer May Benefit. Robert Kenneth MacLea, Consulting Expert of the Tariff Board, Shows That the American People Are Mulcted of $88,000,000 a Year.

New York, Aug. .—Did you ever hear the story of cotton?

It is as thrilling as a narrative of adventure. It is as interesting as a novel—interesting particularly because it concerns the welfare of millions of people who wear cotton goods. It is interesting because it is the dress of the poor, the universal substitute for wool and silk. It is interesting, furthermore, because it is true.

The story of cotton is the story of a protective tariff for the benefit of rich manufacturers at the expense of the whole people who wear cotton goods.

It has been reasonably calculated that because the cotton tariff is fixed by the Payne-Aldrich law the American people are paying $88,000,000 more every year than they should pay for their cotton goods and that a saving of this amount could be accomplished by a reasonable reduction in the present duties.

The story of cotton is told by an expert, Robert Kenneth MacLea, consulting expert of the tariff board, in a series of articles published in the New York World. Mr. MacLea's views are the views of a lifelong Republican, a friend of the protective policy of the Republican party, but at the same time an opponent of tariff graft and favoritism. To this work Mr. MacLea has brought a varied experience, covering more than twenty years, in the manufacture and marketing of textiles.

He first distinguished himself as an advocate of honest tariff legislation by finding the "jokers" of the Payne-Aldrich act, when the agents of a few New England mills were permitted to write their own rates to suit themselves. He was chairman of the tariff committee of the New York Dry Goods Merchants' association and in that capacity conducted a campaign which attracted the attention of the newly created tariff board. To accept the position of consulting expert to the board he gave up the management of the domestic business of the New York firms of R. B. MacLea & Co. and Converse & Co.

The story of cotton is a companion piece to the story of Schedule K—the woolen schedule—declared by President Taft to be infamous and indefensible.

The findings of the tariff board with regard to the woolen schedule were analyzed by Chairman Underwood of the ways and means committee and condemned as inaccurate, incomplete and worthless as an aid to legislation.

When the tariff board's findings on the cotton schedule were made public the World decided to make its own investigation concerning it, and Mr. MacLea was selected for that purpose. The World had the findings of the board on manufacturers of cotton dissected from the practical point of view of business, analyzed in their relation to the interest of the consumer and the facts translated into the language of the everyday man and woman.

One hundred cloth samples purchased in representative domestic markets were made the basis of the tariff board's findings on the cost of cotton cloth produced in this country. Mr. MacLea used the same cloth samples as concrete illustrations of the workings of the tariff and from these exposed the very generally perpetrated fraud of selling American made goods as "imported" and showed why the excessive tariff permits and fosters this imposition.

Recognizing that the tariff would be a vital issue of the campaign and that controversy would center about President Taft's "nonpartisan" tariff board and its work, the World undertook the investigation of cotton and sought answers to the following questions:

Has the work of the tariff board justified the delay in reducing the tariff and giving relief from the high cost of living?

What have the people gained in the three years under the Payne-Aldrich tariff IN RETURN FOR MORE THAN $5,000,000,000 TAXED OUT OF THEIR POCKETS AND INTO THE POCKETS OF PROTECTED PRIVILEGE?

How honestly, impartially and thoroughly did the "nonpartisan" tariff board undertake its task?

Several months before the cotton report was completed Mr. MacLea declares that he discovered sinister influences in the tariff board's working to eliminate findings most damaging to the favored few in the cotton mill industry. Such suppressed information as Mr. MacLea considers to be of vital importance to the cotton industry and the public has been presented in the World. He has also explained what the mass of figures of the cotton report signifies and presented some of the most important of the conclusions to be drawn from that report, a work which the board saw fit not to attempt.

The story of cotton, as written by Mr. MacLea and published in the World from time to time, forms one of the most interesting and important features of the present campaign.

He Was Going Away.

It is related that when a group of visitors was going through the county jail recently a burly negro trusty was called to open doors and perform other similar duties for the visitors.

TO THE SUPERVISORS

I hereby announce myself for the positon of janitor of the courthouse at Ukiah subject to the will of the board of supervisors.

Some say that there are older residents of the county who should have the preference, as to this I will say I first registered in this county in 1904 at Laytonville.

My wife is a native of this county, her father, the late J. H. Braden, was one of the founders of this county filling the chair in the board of supervisors now occupied by Hon. D. H. Lawson. This was back in the seventies.

The family is one of the oldest and most respected in the county and any favors conferred on me will be shared by the aged widow and mother for it is our intention to remain with her to care for her, in her declining years. Now if there is any applicant that can show a better cause I will gladly withdraw from the contest.

I hope the board will grant this out of respect to their ex-member and his widow.

Yours truly
Geo. Bidwell.

UKIAH BEATS INDIANS; SCORE WAS 14 TO 1

A big assemblage of learned fans witnessed one of the most hair raising, breath taking games of the season Sunday, when the Ukiah boys and the Ukiah Indians came to conflict on the local diamond. Believe the Bull Moose fans, boys, that was some game. With Van Dyke (slats) in the box tossing to Huft on the receiving end, and the famous Indian battery Potter and Campbell for the Indians, the score was goose eggs up in the fifth inning but the Ukiah boys came through with a sudden burst of speed in the last half and the final score was 12 to 1 in favor of Ukiah.

The features of the game were Sap Caughey's bat breaking stunt, Chicourrat's and Ruddock's homers and Umpire Frank Caughey' foot work and good luck in not getting tangled in Slat's lengthy grabbers. Frank did some artful dodging, but managed to escape unharmed.

With Frank Roberts Olie Olson and half a dozen other redskins chattering Injun in the grandstand the rooting was up to the standard set in the past and was a big feature of the game.

This is the last game of the season for Ukiah and the local boys have scattered to their dugouts and hollow logs for the winter.

Claude Pinches and wife of Laytonville were registered at the Palace the fore part of the week.

Wanted—A milch cow. Must be gentle and a good milker. Seller must be willing to let her go on trial. Apply to Richard Langtree, Miller's stable, Ukiah.

Wm. Hoefgen came over from the Lake County Canning Co's. plant at Upper Lake last Sunday. He reports that the company is having a most successful run.

Mrs. C. F. Rupe, wife of Fred Rupe, foreman of Irvine and Muir's lumber yard at Noyo, passed through Ukiah Monday on her way to her home at Ft. Bragg. Mrs. Rupe has been visiting her mother at Upper Lake for the past two months.

Geo. English and family motored up from Imperial the first of the week and have been visiting friends and relatives in Ukiah. They are located permanently in the southland, but have to come back to Mendocino occasionally for a breath of cold air.

Albert Brown and wife of Mendocino, passed through the county seat on their way to San Diego, where they will make an extended visit. Mr. Brown is the manager of the Electric Light Co. at Mendocino and a promoter of the Mendocino Apple Show.

Leo Brandon, son of supervisor Brandon of Ft. Bragg, passed through Saturday on his return to business college at Santa Rosa. Leo has been working in the Commercial bank at Ft. Bragg during vacation and expects to return to his position at the bank, as soon as he finishes his course in which he has yet two months to put in at studying banking.

Order to Show Cause

In the Superior Court of the State of California, in and for the County of Mendocino.

In the matter of the estate of Frank Duncan, Deceased.

Order to Show Cause why order of sale of real estate should not be made.

It appearing to the satisfaction of the above named court and to the Judge thereof, from the verified petition of James Clendenin, administrator of the estate of Frank Duncan deceased, presented and filed herein, that it is necessary to sell a portion of the real estate of said deceased, described in said petition, and consisting of 30.27 acres thereof,

IT IS HEREBY ORDERED by the above named court and the Judge thereof that all persons interested in the estate of said Frank Duncan deceased, appear before the said Superior Court of the state of California in and for the county of Mendocino at the court room thereof in Ukiah City, in said county on the 23rd day of September A. D. 1912 at 10 o'clock in the morning of said day, then and there to show cause, if any they have, why an order as prayed for in said petition should not be granted to the said administrator, to sell the said portion of the real estate of said deceased described in said petition, and consisting of 30.27 acres thereof, at either public or private sale, for the purpose mentioned in said petition, as he shall judge to be for the best interests of said estate, and for the parties interested therein.

IT IS FURTHER ORDERED that a copy of this order be published at least once a week for four successive weeks prior to the date of said hearing of said petition, in the Dispatch-Democrat, a newspaper printed and published in said county of Mendocino.

A WORD WITH WOMEN

VALUABle ADVICE FOR UKIAH READERS.

Many a woman endures with noble patience the daily misery of backache, pains about the hips, blue, nervous spells, dizziness and urinary disorders, hopeless of relief because she doesn't know what is the matter.

It is not true that every pain in the back or hips is trouble "peculiar to the sex". Often when the kidneys get congested and inflamed, such aches and pains follow.

You can tell it is kidney trouble if the secretions are dark colored, contain sediment; the passages are too frequent or scanty. Then help the weakened kidneys. Don't expect them to get welll alone.

Doan's Kidney Pills have won the praise of thouands of women. They are endorsed at home—Read this Ukiah woman's convincing statement:

Mrs. F. A. Elder, 1120 N. Standley St., Ukiah, Calif., says::

"I have known of the value of Doan's Kidney Pills for a long time. Several years ago I suffered from a steady ache in my back I also had much trouble from the kidneys Having heard good reports about Doan's Kidney Pills, I procured a supply and before I had taken them long, I could see that they were helping me I used in all six boxes of Doan's Kidney Pills and was restored to good health. I have such great confidence in the curative powers of Doan's Kidney Pills that I willingly recommend them"

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York sole agent for the United States.

Remember the name—Doan's—and take no other.

"I was cured of diarrhoea by one dose of Chamberlain's Colic, Cholera, and Diarhoea Remedy," writes M. E. Gebhardt, Oriole, Pa. There is nothing better. For sale by all dealers.

One of the most common ailments that hard working people are afflicted with is lame back. Apply Chamberlian's Liniments twice a day and massage the parts thoroughly at each application and you will get quick relief. For sale by all dealers.

BLOOD POISON

Is prevented by applying Dr. Bell's Anti Pain to cuts, scratches and bruises. It destroys all septic matter enables the wound to heal without soreness. Be sure to get Dr. Bell's. Sold by E. B. Gibson.

Republican Party Dead

The Republican party of to-day is virtually dead. It is on the verge of disintegration and will be a thing of the past after November. Like all the other political parties that hav' opposed Democracy, it has Shot its bolt.

Democracy has lived since the formation of the republic and will continue to live as long as the republic endures. Democracy was first opposed by the old Federalist party which existed for a little over a quarter of a century and was killed by Andrew Jackson. The opponents of Democracy then formed the Whig party, which existed about as long as the Federalist, and died an ignominious death in 1856. The present Republican party came into existence then and has lived by plundering the people for half a century. Woodrow Wilson will kill what remains of it on November 5th. The people have "come to" and the revolt has been so general that a new party has been formed in a futile effort to stem the tide.

Progressivism simply means a return to Democracy and the rule of the people. A true progressive will support Woodrow Wilson and the rest of the Democratic ticket. The "Third Term" party cannot last because it is formed to promote the ambitions of one man and instead of being in the interest of all the people. It is led by a bunch of political hacks and fakirs who wish to get into office. It is the same old set of public plunderers with another mask on, that's all. The people have already seen through the masks and will deal the masquerading fakirs a death blow in November. Democracy will come into her own and the people will in reality rule once more.

We understand that Brother White of Ukiah, editor of the Press, which is boosting the Bull Moosers, is Secretary of the Mendocino County Republican Central Committee and holds that office by the grace of the Taft Republicans. Say, Brother White, can you ride a moose and an elephant at the same time, each going in opposite directions?—Ft. Bragg Chronicle.

E. V. LEEK TAKES BRIDE OF EIGHTEEN

E. V. Leek, son of C. E. Leek, a prominent rancher of Hopland, and Miss Helene McMullen, of San Francisco, were united in marriage in the parlers of the Palace Hotel last Wednesday afternoon at 1:30, Rev. J. E. Moore performing the ceremony. With the bride and groom were Miss Gladys Leek and Fred Anderson as bridesmaid and best man.

Following the ceremony the happy couple departed on the afternoon train for Hopland and will later spend a several weeks' honeymoon around the bay.

The groom has many friends here as well as in Sanel valley who will join in wishing him and his charming bride a life of happiness and good fortune.

Incendiary Attempt

Mrs. Stuttsman, proprietor of the Odle house, discovered a big pile of papers saturated with kerosene oil under her kitchen last Monday,. The pile had evidently been placed there by some incendiary with the intention of touching a match to them later in the evening. The discovery was timely, for a fire started in that part of the building at night would have meant the endangering of the lives of many sleeping guests.

Laytonville Couple Married

Claude Pinches, age 19 and Miss Georgia Holmes, age 21, both of Laytonville, were united by the tie that binds by Justice Crockett Monday evening.

Their many friends join with the Dispatch in wishing them a prosperous and happy life.

G. H. McAllister was down from otter valley Wednesday.

CHARLES W. BROBACK HAD EVENTFUL LIFE

C. W. Broback, notice of whose death appeared in last week's Dispatch, led a very eventful life and could his biography be written it would read like a romance. He was one of the pioneers of this state and Oregon and took an active part in the wild life that prevailed in these states in the early fifties. He first came to California in 1852 at the age of 17 years, led by the lure of the gold fields and the promise of adventure that the West held in those stirring times. He first settled in Healdsburg when that place was a a mere hamlet on the outskirts of civilization. He engaged in the livery business there and was married to the sister of his business partner, Miss Frances Haight in 1859.

We next find him teaming from Sacramento over the Sierras to Carson city and Reno, Nevada in the days before the railroad came, when sixteen- and eighteen-mule teams hauled all the freight that went into these bustling mining camps. With the advent of the railroad he departed from that section and went to the Dalles, Oregon, where he again engaged in teaming into Canyon City and Boise.

These were the days when the Snake Indians were on the warpath and many a night Mr. Broback lay under his wagon with his mules tied to the wagon bed and fought off the maurauding Snakes who were intent on stampeding his stock and killing him.

He next engaged in stock raising in Lake county, Oregon, and had many narrow escapes in encounters with cattle rustlers and thieving Indians.

He moved to where Medford now stands in 1880 and owned the ranch where the town is located for several years, assisting in the founding of the place. He returned to California and settled in Lakeport in 1885, later moving to Hopland, where he engaged in hop growing for a time, and finally settled in Ukiah in 1890, remaining here up to the time of his death.

Saddle Thief Caught

Deputy Sheriff Brewer had the pleasure the fore part of the week of presenting the county bastile with another bad acter from the Kit Carson's show. The addition this time was D. O. Grimes, who appreciated a good thing when he saw it and took it in the form of a saddle belonging to one of the Ritchie boys, who had tied his horse to a fence and had gone into see the show. As soon as the saddle was missed Ritchie went to the manager of the show and asked for assistance but found none: he then notified Sheriff Byrnes and through the doings of said worthy sleuth recovered his saddle, at Santa Rosa.

There are now four of the worthy aspirants for free board hovering under Sheriff Byrnes' broad wing, and it looks now as if the county was going to support a circus for a few months.

The case was ordered submitted on briefs.

RAIN DOES SLIGHT DAMAGE TO CROPS

The rain during thelast four days was unusually hard for this time of the year, the precipitation being 2.58 inches, according to figures furnished by Dr. Geo. McCowen, government observer.

It is feared now by many that the storm will continue and spoil the hop, prune and grape crop.

On the ranges the copious rain will start the grass early and if too long a dry spell does not follow the stock will go into the winter in fine shape.

ARRESTED FOR SELLING WINE TO INDIANS

U. S. Special Deputy R. L. Hutchinson arrested John Hotter and Richard Hardwick Monday for selling wine to Indians. It seem as the business for some time and had a good patronage. They had five gallons of wine on their wagon, which was pulled in the brush on one side of the road near the Harry Frazier, Largo hop field, and were prepared to sell any amount from a gill to a gallon.

Both men plead guilty and paid their fines, leaving their wine in the Sheriff's office and promising never more to indulge in the traveling saloon business of the benefit of the Indians. They took a timely departure.

"LADY OF THE LAKE" COMING TO VICTORY

Manager Winnie Cox of the Victory Theatre announces that he has obtained the Kalem reproduction of Scott's peerless poem "The Lady of the Lake," and will put it on at the Victory tonight and Saturday.

The poem is too well known to nee any outline of its story. The Kalem company are at the scene of the poem in Scotland and this is one of their latest releases. Loch Katrine, Ben Venue, Ellen's Isle, and King James' court are faithfully shown and the picture is of the most beautiful and one of the most interesting from an historical and literary point of view that has ever been thrown on the screen.

It Was All a Joke

A bunch of boys at Ed Howell's hop patch had some fun with a picker from Oakland last Sunday night. He had expressed a desire to go out stealing waermelons, so a bunch of them took him to a stubble field affer dark where some of the others had concealed themselves with shotguns. The latter party opened fire and one of the boys with the Oaklander pretended to be shot in the leg. It was bandaged up and then the boy from below had to carry the supposedly injured man to the hop kiln for medical assistance. When they arrived at the kiln Johnny hopped down as spry as you please, and the laugh was on the Oakland man.

Jay Turner Returns

Jay Turner, who left here three years ago for Alberta, Canada, has returned to dear old Ukiah. Jay liked Alberta all right but could not stand the climate. He was doing well financially and had a good start, but decided to come back to tomalina land. He denies the report that he had captured a sponutero up there and is still a monondadeedahee. While not able to pludaree a "muscoovy", he says he "flat rocked a boun' dawg." Jay has been warmly greeted by his old time friends.

Makes Good Argument

A spirited land case came up in the superior court Wednesday when J. W. Preston and Hale McCowen Jr. for the plantiff Hale McCowen Sr. and Keith Eversole for the defendant Geo. Thuman, came to argument. Although this was Eversole's first case in his home town, he defended his client in a manner becoming a lawyer much older and of greater experience. Judge White has not yet rendered decision.

Coast Couple Wed in Ukiah

Jas. W. Todd, a leading carpenter of Caspar, and Eunice E. Barnes, of Caspar, were married Wednesday evening at 8:30 by Rev. J. E. Moore, at his residence on the corner of Smith and Pine streets. The happy couple will go to San Francisco for a week's visit before returning to Caspar, where they will make their home. Their many friends join in wishing them a happy and prosperous future.

Steam Laundry Changes Hands

J. S. Waugh, who has equipped one of the finest steam landries in the state for Ukiah, has sold both lanndry and business to Geo. T. Johnson, a man highly competent to maintain the high standard heretofore held by Mr. Waugh. Mr. Johnson is prepared for any line of work and solicits your patronage.

Advocate Enlarges

The Fort Bragg Advocate has enlarged from a blanket sheet to a six-column quart. It has also improved a great deal in its news service and in its advertising patronage. It is a credit to the coast and is doing its share in the building-up of that section.

Mrs. Emery has returned from San Francisco with her fall stock and is ready for business. There will be no special opening this season.

Buicks Win Road Race

Ed Lyons driving a 1909 Buick car defeated a field of 10 entries in the Imperial valley road race Sunday, July 7th. Clarance Conan, also at the wheel of a Buick, came in second. The distance was 106 miles and the winning Buick covered the distance in five hours, 17 minutes and 30 seconds. The roads were extremely rough and over half the entries were compelled to retire before the end of the race. The racers crossed 205 bridges in the run and were forced to negotiate many stretches where the sand was several inches deep.

The winning car was a 1909 model--4 yearsold
